ABOUT ME

Hi I'm Gideon and I'm passionate about all things Tech. I'm a frontend developer with 2+ years experience in using HTML, CSS, SCSS and Javascript for building responsive websites. I am always eager to either try out new things or use new technologies or methods. I am a team player, great communicator, and have a positive attitude to learning. I recently led a team of four in the hackathon organised by CodeSandbox and Ingressive4good to finish 3rd place.

WORK EXPERIENCE

Web Development Experience

- Developed/Coded the front-end of a music web app using HTML, CSS, JavaScript and JQuery.
- Built a front-end website gotten from a template on frontendmentor.io using HTML, SCSS, and JavaScript.
- Led a team of two Engineers and two designers to finish third(3rd) place in the hackathon organized by CodeSandbox and Ingressive4good.
- Serving as a Frontend Web Developer intern for DHELC Business Consult. Involved in the process of creating web solutions for start-ups.

Graphic Designer(Freelancing)

- Worked with various clients in Brand design, flier design and business card designs.
